

Maintenance/Reliability Technicians

- ⬢ Weekday and weekend work plus generous OT
- ⬢ Great development opportunities and diversity of projects
- ⬢ Competitive pay rates

The Kernoohan Team

We're a friendly, positive and solution focussed team and we're proud of our great culture and excellent health and safety standards. Because we're well known in Nelson for delivering innovative and high-quality engineering solutions, we enjoy the opportunity to work in many different market sectors – our diversity is a key strength.

The Job

Our maintenance team is growing and with a strong forward workload we're on the hunt for more talented professionals to join our vision of being exceptional engineers.

Opportunities are available for trade qualified Maintenance/Reliability Technicians with hands-on maintenance expertise and skills in diagnostics/fault finding. You'll be a competent TIG/MMAW welder and you'll be adept at working with bearings, seals, machinery alignment, gearboxes, transmissions and pump/valve/pipe systems

For you just turning up isn't enough – you want to use your brain, solve problems, be fairly rewarded for your talent and associate yourself with a company you can be proud of. Seeking to work safe and look out for your workmates will be a no brainer, and you'll relish being trusted to do what you do best - work smart, find solutions, own it.

With sizeable investment in your safety, training and wellbeing we're all about people. The bar is set deliberately high and flexibility abounds for the right people – become a permanent, fixed-term or casual employee. Either way we'll make it work because that's what we're all about – finding solutions.

If you care about your own reputation as a professional maintenance engineer, and want to work with a company equally committed to theirs we'd love to hear from you.

To apply for this job please send your CV to jobs@kernoohan.co.nz or for a confidential chat, please call Ruth on 021 400 937

Please note that all applicants must have the right to live and work in NZ
